PROFILE

Full-stack developer specializing in front-end development with a focus on utilizing TypeScript, React, and Next.js, integrated with API and database functionalities. I am deeply passionate about writing clean and efficient code, consistently prioritizing the creation of solutions that can be readily understood and integrated by team members. This approach not only fosters collaborative synergy but also drives project success and enhances overall productivity.

SKILLS

Languages: **JavaScript** | **TypeScript** | HTML | CSS

Frameworks & Libraries: **React** | **Next.js** | Redux | Node.js | Express | Prisma | TailwindCSS | Sass

Databases & Others: MongoDB | PostgreSQL | MySQL | Supabase | Docker | Git | GitHub | Figma

EXPERIENCE

Full Stack Web Developer   **Jul 2022 - Present**

- Cafe Hopping ⬈ Full-stack Cafe Finder Application
- Designed to assist cafe enthusiasts in discovering and engaging with cafes in their vicinity or specific areas.
- Technologies: Next.js, TypeScript, next-auth, Prisma, PostgreSQL, Google Maps API.
- Key Achievements:
  - Integrated Google Maps API to retrieve and showcase detailed information about various cafes.
  - Implemented secure user authentication through next-auth, offering personalized experiences such as saving favourite cafes, liking popular choices, and accessing reviews to make informed decisions.

- Money Note ⬈ Full-stack Financial Management Application
- Empower individuals to track and manage their financial transactions effectively.
- Technologies: React, RTK, MongoDB, Express, JWT, Tailwind.
- Key Achievements:
  - Utilized MongoDB for data storage and managed data fetching, updates, and deletions from the front-end.
  - Ensured user data security with JWT-based authentication, safeguarding sensitive financial information.
  - Added a personal touch to the app by allowing users to customize their profiles, fostering a personalized and engaging user experience.

- Teddies vs Monsters ⬈ Comprehensive Gaming Website for Real Client
- Developed a fully functional gaming website for a real client.
- Technologies: Next.js, Strapi, Stripe, PostgreSQL, Cloudinary, Docker, TypeScript, Storybook.
- Key Achievements:
  - Developed a fully functional shopping cart allowing visitors to add and remove products, with a clear display of selected items and the total payable amount.
  - Integrated Stripe for secure and reliable payment processing, enabling authenticated users to smoothly proceed to checkout.
  - Leveraged Storybook to create a component library, promoting consistency and reusability across the application.

Salesperson | Yashima & Co., Ltd.   **Apr 2020 - Jun 2022**
- Managing contracts for the supply of transformer equipment to substations owned by JR East.
- Working closely with factories to prepare persuasive proposals based on detailed research into the equipment's service history and lifespan.
- Successfully steering clients to favourable decisions and maintaining strong relationships.

EDUCATION

Web and Mobile Application Development Diploma   **Aug 2022 - Present**
Cornerstone International Community College of Canada, Vancouver, BC
