Profile

Software developer specializing in TypeScript, React, and Next.js, integrated with API and database functionalities. Passionate about crafting clean, reusable and structured code to enhance team collaboration, drive project success, and boost productivity. I am eager to hone my skills and become a valuable member of your software development team.

EXPERIENCES

Front-end developer | Cyber Records Co., Ltd. Kumamoto, Japan   February 2024 – Present
- Enhanced user experience by resolving validation issues in the input forms using React Hook Form, resulting in a 20% reduction in user input errors.
- Developed 3 high-quality, reusable components within one month utilizing Next.js, TypeScript, and Node.js, which streamlined the development process and improved code maintainability.

Front-end developer | Orcasound, Seattle, Washington   September 2023 – Present
- Collaborated with UI/UX design teams to translate designs into functional and responsive web pages using Next.js and Material UI, resulting in a 10% increase in user engagement.

Front-end developer | Exception Co., Ltd., Tokyo, Japan   November 2023 – February 2024
- Boosted the company's website performance, achieving a score increase from 74% to 95% on Lighthouse by overhauling the site with Next.js 14, implementing server-side rendering, and integrating TypeScript and Tailwind CSS.
- Performed a detailed UI analysis, pinpointing critical areas for improvement that informed the development of a more user-friendly and responsive interface, which heightened user engagement.

Front-end developer | kiizankiizan Co., Ltd., Osaka, Japan   August 2023 – October 2023
- Enhanced the front-end development of the company's in-house app using Next.js, TypeScript and Material UI, ensuring a state-of-the-art and user-friendly interface from ideation to iterative improvements.
- Developed reusable UI components and API hooks that reduced development time for new features by 25%.
- Fostered a collaborative environment with backend teams, using Ruby on Rails for efficient data management and to ensure seamless integration across services, enhancing overall app performance.

SKILLS

JavaScript | **TypeScript** | HTML | CSS | **React** | **Next.js** | Redux | **Node.js** | Express | Prisma | Angular | Tailwind CSS | Material UI | Sass| MongoDB | PostgreSQL | MySQL | Supabase | Docker | Git | GitHub | Figma

FULL-STACK PROJECTS

Cafe Hopping | https://github.com/harukafujii13/CafeHopping_App.git
(Next.js, TypeScript, next-auth, Prisma, PostgreSQL, Google Maps API, Tailwind CSS)
- Designed to assist cafe enthusiasts in discovering and engaging with cafes in their vicinity or specific areas.
- Integrated Google Maps API to retrieve and showcase detailed information about various cafes.
- Implemented secure user authentication through next-auth, offering personalized experiences such as saving favourite cafes, liking popular choices, and accessing reviews to make informed decisions.

Money Note | https://github.com/harukafujii13/MoneyNote_App.git
(React, RTK, MongoDB, Express, JWT, Tailwind CSS)
- Designed to empower individuals to track and manage their financial transactions effectively.
- Utilized MongoDB for data storage and managed data fetching, updates, and deletions from the front-end.
- Ensured user data security with JWT-based authentication, safeguarding sensitive financial information.

EDUCATION

Web and Mobile Application Development Diploma   September 2022 – Present
Cornerstone International Community College of Canada, Vancouver, BC
