PROFILE
Full-stack developer specializing in front-end development with a focus on utilizing TypeScript, React, and Next.js, integrated with API and database functionalities. Passionate about crafting clean, efficient code that enhances team collaboration, drives project success, and boosts productivity.

EXPERIENCES

Front-end developer | Exception Co., Ltd., Tokyo, Japan　　　　　　　　*November 2023 – Present*
- Improved the company's website, originally built with JavaScript, HTML, and CSS, using Next.js 14, TypeScript and Tailwind CSS. This enhancement successfully boosted the overall performance score from 74% to 95% on the Lighthouse website performance checker.
- Conducted a comprehensive analysis of the existing website's user interface, identifying key areas for enhancement, leading to the development of a more intuitive and responsive UI.

Front-end developer | Orcasound, Seattle, Washington　　　　　　　　*September 2023 – Present*
- Collaborated closely with the UX/UI design team to translate creative concepts into fully functional and responsive web pages using Next.js, enhancing user engagement and garnering positive user feedback.

Frontend developer | kiizankiizan Co., Ltd., Osaka, Japan　　　　　　　　*August 2023 – October 2023*
- Enhanced the front-end development of the company's in-house app using TypeScript, Next.js and MUI, ensuring a state-of-the-art and user-friendly interface from ideation to iterative improvements.
- Built reusable UI components and API hooks for the app.
- Collaborated closely with backend teams to ensure optimal data flow and seamless integration, leveraging technologies such as Roby on Rails.

SKILLS
JavaScript | **TypeScript** | HTML | CSS | **React** | **Next.js** | Redux | Node.js | Express | Prisma | Tailwind CSS | Sass| MongoDB | PostgreSQL | MySQL | Supabase | Docker | Git | GitHub | Figma

FULL-STACK PROJECTS
Cafe Hopping | https://github.com/harukafujii13/CafeHopping_App.git
(Next.js, TypeScript, next-auth, Prisma, PostgreSQL, Google Maps API, Tailwind CSS)
- Designed to assist cafe enthusiasts in discovering and engaging with cafes in their vicinity or specific areas.
- Integrated Google Maps API to retrieve and showcase detailed information about various cafes.
- Implemented secure user authentication through next-auth, offering personalized experiences such as saving favourite cafes, liking popular choices, and accessing reviews to make informed decisions.

Money Note | https://github.com/harukafujii13/MoneyNote_App.git
(React, RTK, MongoDB, Express, JWT, Tailwind CSS)
- Designed to empower individuals to track and manage their financial transactions effectively.
- Utilized MongoDB for data storage and managed data fetching, updates, and deletions from the front-end.
- Ensured user data security with JWT-based authentication, safeguarding sensitive financial information.

EDUCATION
Web and Mobile Application Development Diploma　　　　　　　　*September 2022 – Present*
Cornerstone International Community College of Canada, Vancouver, BC
